

The background consists of several overlapping, angular shapes in a muted gold and a light, dusty blue. The shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to be layered on top of others. The overall aesthetic is clean, modern, and minimalist.

 **SARA**
QUEEN OF VANADY

The art of glass box making (vanady in Farsi) is a traditional art which is combining glass and tinfoil to make different containers to store valuables and jewellery which was at its peak since two centuries ago in Iran.

From what we know today the origin of this craft was Sanandaj the Capital of Kurdistan in Iran and the oldest glass boxes made goes back to 250 years ago. "Vanady" in Kurdish means a clear surface which can be seen through but generally used for glass.

Unfortunately, the art of glass box making which was one of the most popular crafts in the Kurdistan region was gradually forgotten about in the past decades.

Our business "Sara Queen of Vanady" aims to regenerate this precious heritage and has started producing glass boxes in all shapes, sizes and dimensions. By upgrading the production procedure and quality of products we are now producing hundreds of varieties using brass, steel and copper, also combining glass with Khatam, timber, marble and stain glass art which has diversified and attracted many consumers within and outside Iran.

These products are advertised and distributed by the branding of "Plant Lady", "Persian Diamond" or "Sara queen of vanady", we aim to bring back the forgotten crafts and modify them to the needs of the time and have a part in producing practical and usable handicrafts for everyone's home.

Vanady Handicrafts

Our products are made with a special elixer called love.
You may probably feel it.

PRODUCING SECTION

Plant Lady (golbanoo in Persian) Workshop tries to win the satisfaction of the customers through producing exquisite and practical products by a group of skillful artists of all age groups.

size : 15X15X15

made by stone

Painting by professional artists

ATHENA Code/B

size : 22X27 - 3 Parts

made by glass and khatam

Khatam is an ancient Persian technique of inlaying. It is a version of marquetry where art forms are made by decorating the surface of wooden articles with delicate pieces of wood, bone and metal precisely-cut intricate geometric patterns. Khatam-kari or khatam-bandi refers to the art of crafting a khatam. Common materials used in the construction of inlaid articles are gold, silver, brass, aluminum and twisted wire. Atena(code B) is combination of glass and Khatam.

HANDICRAFTS

SARA
QUEEN OF VANADY
HANDICRAFT

our story is about a girl named Sara who had big dreams. Since she was a little girl she always prayed to have enough power, understanding and knowledge to be able to make a positive change or a footprint in this world. Deep down in her heart, she knew God is watching and will guide her to the right path when the time is right. With the faith and the strong will she had, she listened to her heart every step of the way and stayed patient when things took a turn. Being interested in art and design she studied and worked in Fashion, interior design and horticulture industries. On this path many failures occurred, it seemed nothing was working out. After 8 years of chasing her dream but nothing feeling quite right and not working out she felt maybe she had to stop, as she was only wasting her youth, time and money. She was also losing her faith as she felt her prayers were not being answered. One day when things were just at their worst and she was about to make the decision to quit her dreams and live an ordinary life, she received a text message from a total stranger who asked if she was interested in partnering to produce glass boxes. A meeting was arranged and the business started with a handful of people in the basement of her house. Now after 3 years of hard continues work, their business has become one of the most professional and high-quality producers of its kind in the region.

Archeological studies show that from the Neolithic period onward, stones were used for decoration and ornamentation in the world and throughout history they have been used in traditional medicine for treatment purposes. Each of them is a manifestation of the beauty and charm that the universe has bestowed upon natural creatures.

For instance, it is said that ruby energizes the body and has strong positive effects on high-spiritedness; it also increases enthusiasm for a better life, increases self-confidence and it is said that it has a positive impact on the "Root Chakra".

Other stones too are said to have some positive physical and mental impacts.

WE ARE INVENTING
WITH SPIRITUAL INTENTIONS.
